ZIGURAT CIRCUS BAND STREET ARTS COMPANY

Zigurat is a music and acting band that has a unique, crazy and fun energy and its mission is to enjoy and make people enjoy.

Good music, cheer ambient, street theatre and a lot of surprises.

Everything made with respect and grace.

TRAVELING ANIMATION

The show has a Rock'n'Roll musical formation completed by 5 musicians: guitar, bass, trumpet, saxo and drums. They all move freely with cordless microphones except the drummer who is on top of the carriage.

The carriage carries the sound system and the power generator, so we can be totally autonomous. We only precise a suitable route without arquitectonical barriers in order to move by.

The band includes a frontman clown, Monsieur Florian, whose aim is to perform entertaining and surprising shows for the audience, with a participative perspective.

Finally, we add another actor who will be the driver of the carriage, essential to move, and will also help Monsieur Florian with the shows.

MONSIEUR FLORIAN AND THE CIRCUS BAND

Melcior Guilera: A restless and always-evolving entertainer with a lifetime's work of making others laugh...including himself.

Carles Pereira: Sailing back from the Americas and now standing on the Zigurat mountaintop, Carles drums up a fresh and eclectic way of playing.

Roger Pascual: Mathematician by day, saxophonist by night, and a specialist in spreading good vibes.

Iñaki Ramos: He may look serious on the outside, but he sure is having fun on the inside! He fearlessly navigates any style that is thrown at him with ease, delivering a top-level performance with every note. He picks up his bass feeling good, and puts it down feeling great.

Marc Marcet: Always with a trumpet in hand, Marc is known as a master of his craft. His life motto? "Tiruriru tatatata turururut doot doot."

Alex Pereira: Performing here and there, you'll always find him right in the eye of the hurricane! No one knows where he finds the time to push the Zigurat train!

Pemi Rovirosa: Talk about him, and you won't hear much. Give him a guitar, however, and you'll hear everything he needs to say! All he needs are five fingers, six strings, and a party to crash, and you'll experience some rock 'n' roll you'll never forget!
